

12th International
Conference on Advanced
Vibrational Spectroscopy

27.08-01.09.2023
Krakow, Poland

It is our pleasure to announce that the 12th International Conference on Advanced Vibrational Spectroscopy ICAVS12 will take place on 27th August – 1st September 2023 in Krakow, Poland!

The conference is dedicated to advances in all areas of vibrational spectroscopy and is an opportunity to discuss and exchange cutting-edge knowledge and ideas in vibrational spectroscopy. This all-inclusive approach results in the presentation of a broad range of topics and appeals to new and experienced vibrational spectroscopists as well as spectroscopy practitioners from industry and academia. ICAVS is unique in that it maintains a balance between applied and fundamental science, industrial and academic applications. The consequence of these characteristics is that the ICAVS conference is one of the most important venues to showcase the latest scientific and instrumentation developments in vibrational spectroscopy.

The ICAVS conference attracts a global audience of hundreds of scientists and rotates around the globe. Recent meetings include ICAVS8 in Austria (2015), ICAVS9 in Canada (2017), and ICAVS10 in New Zealand (2019) as well as in Poland – online edition (2021). Over the years, ICAVS has received support from a number of important industry partners, including leading instrument companies and those recognized around the globe for quality optics, mechanical components, spectroscopic devices, analytical data-analysis software, and integrated spectroscopy solutions.

The past three conferences have attracted between **450-700** participants from all over the world, including **UK, Australia, New Zealand, Poland, India, Korea, Austria, Canada, USA, Germany, Japan, France, China, and Brazil** and others.

Under the guidance of our International Program Committee, ICAVS12 will include presentations of interest to researchers, application scientists, and instrumentation developers from universities, research institutes, and industry, to provide a forum to present and discuss recent developments in all fields of vibrational spectroscopy.

ICAVS 12 in Krakow will offer a unique opportunity for interesting, fruitful scientific interactions to all participants, providing them with memorable and pleasant experiences. We look to your support as we create ICAVS12 and we would like to warmly invite you from all parts of the world to join us in Krakow in 2023.

Your's faithfully,

*Prof. Kamilla Malek – Chair,
Prof. Janina Kneipp – Co-chair,
Prof. Malgorzata Baranska – Co-chair,
Dr. Katarzyna Majzner – Co-chair*

Venue of the Conference

ICAVS 12 will take place in the Faculty of Chemistry at Jagiellonian University (JU) in Krakow (Poland), located at the Campus of the 600th Anniversary of the JU Revival.
